

# Environmental Monitoring of River Indus

## Contents

### Chapter-1 Introduction

1.1	Preamble	01
1.2	Objectives	02
1.3	Scope of Work	03

### Chapter-2 Project Implementation Methodology

2.1	Introduction	04
2.2	Methodology	04
2.3	Project Area Description	10

### Chapter-3 Pollution of River Indus

3.1	Water Quality of the River Indus and its tributaries	13
3.2	Quality of the wastewater Carrying Drains	42
3.3	Sources of Pollution of River Indus	43

### Chapter-4 Conclusions and Recommendations

4.1	Conclusions	48
4.2	Recommendations	48

## **List of Tables**

<b>Table 2.1</b>	Location of sampling points along Indus river	08
<b>Table 3.1</b>	Wastewater analysis report of river Indus entry point into district Attock near village jabber	13
<b>Table 3.2</b>	Wastewater analysis report of the nallah chail, before mixing into river indus, near jabber village, district Attock	14
<b>Table 3.3</b>	Wastewater analysis report of the river Indus after mixing with nallah chail, near Attock bridge, district Attock	15
<b>Table 3.4</b>	Wastewater analysis report of the River Kabul before mixing into River Indus near Attock bridge, District Attock	16
<b>Table 3.5</b>	Wastewater analysis report of River Indus, after Mixing with River Kabul and before mixing with, Brotha Canal, District Attock	17
<b>Table 3.6</b>	Wastewater analysis report of the Ghazi Brotha Canal, before Mixing into River Indus, at Brotha Village District Attock	18
<b>Table 3.7</b>	Wastewater analysis report of Nallah Hars, before mixing into River Indus, at Brotha Village District Attock	19
<b>Table 3.8</b>	Wastewater analysis report of River Indus after mixing with Nullah Haro and Brotha Canal and before mixing with Siwan River at Village Makhand District Attock	20
<b>Table 3.9</b>	Wastewater analysis report of River Siwan before mixing into River Indus, at Village Tarap, District Attock	21
<b>Table 3.10</b>	Waste water analysis report of River Indus entry point into District Mianwali and before mixing sewage water of Kala Bagh Village, at Village Kala Bagh, District Mianwali	22

<b>Table 3.11</b>	Wastewater analysis report of sewage water of village Kala bagh before mixing into River Indus, District Mianwali	23
<b>Table 3.12</b>	Wastewater analysis report of River Indus After mixing With Sewage Water of Kala Bagh Village and before mixing with sewage water drain of Mianwali	24
<b>Table 3.13</b>	Wastewater analysis report of the Mianwali sewage water drain before mixing into River Indus at Basti Qadirabad, District Mianwali	25
<b>Table 3.14</b>	Wastewater analysis report of the River Indus after mixing with Mianwali sewage water drain Kundian Area, District Mianwali	26
<b>Table 3.15</b>	Wastewater analysis report of River Indus exit point District Mianwali, at Chashma Barrage, District Mianwali	27
<b>Table 3.16</b>	Wastewater analysis report of River Sindh entry point into Disteict Bhakkar, near Kaloor Kot Tehsil and District Khushab	28
<b>Table 3.17</b>	Waste water Analysis Report of River Indus exit point district Bhakkar near Wara Syrran Area, District Bhakkar	29
<b>Table 3.18</b>	Wastewater analysis report of the River Indus entry point District Layyah and before Mixing with sewage water drain of Layyah City, District Layyah	30
<b>Table 3.19</b>	Sewage water drain, before mixing into river Indus, Purani Mandi. District Layyah	31
<b>Table 3.20</b>	Wastewater analysis report of the River Indus exit point of Layyah District and after mixing with sewage water drain of Layyah City, at Dhole Wala. District Layyah	32
<b>Table 3.21</b>	Wastewater analysis report of the River Indus before Mixing with Sangar Nullah. Near Dona Village, Tounsa Sharif, District Dera Ghazi Khan	33
<b>Table 3.22</b>	Wastewater analysis report of Sangar Nullah, before mixing with River Indus, Tounsa Sharif, District Dera Ghazi Khan	34

<b>Table 3.23</b>	Wastewater analysis report of River Indus after mixing with Sangar Nullah Tounsa Sharif, District Dera Ghazi Khan	35
<b>Table 3.24</b>	Wastewater analysis report of River Indus, Entry point into Tah.D.G.Khan And before mixing with Ghazi Ghat Drain, near Khan Wah, Tounsa Sharif, District Dera Ghazi Khan	36
<b>Table 3.25</b>	Wastewater analysis report of the Ghazi Ghat Drain before mixing into River Indus District Muzaffar Garh	37
<b>Table 3.26</b>	Wastewater analysis report of River Indus, Entry point into District Rajan Pur, And before mixing with Manka Drain and after mixing with Ghazi Ghat Drain near Jampur District Rajan	38
<b>Table 3.27</b>	Wastewater analysis report of the Manka Drain, before mixing into River Indus, District Rajanpur	39
<b>Table 3.28</b>	Wastewater analysis report of the River Indus, after mixing with Manka Drain, near Mithan Kot, District Rajan Pur	40
<b>Table 3.29</b>	Wastewater analysis report of the River Indus exit point of District Rajan Pur at Guddu Barrage	41
<b>Table 4.1</b>	Summary of issues of River Indus, proposed measures and roles and responsibilities	49
