purposes of efficient plastic circularity, ensure that the waste single-use plastic product be recycled in the production and consumption cycle expeditiously by following the best international practices.

(4) The producer and consumer shall submit the copy of their extended producer's responsibility plan to the Agency for displaying it on the website of the Department.

(5) The Agency may issue extended producer's responsibility guidelines, to formulate a comprehensive and effective management plan of plastic waste collection system.

6. Responsibilities of the producer.- The producer shall:

- (a) establish a system for collection of the plastic waste generated due to his products within a period of six months from the commencement of the regulations;
- (b) ensure that the minimum requirement of twenty percent mixing of recycled material shall be met in production of single-use plastic product along with virgin material;
- (c) carry out awareness campaigns regarding proper disposal of single-use plastic product which may include, but not limited to, displaying educative slogans, or messages, etc.; and
- (d) perform other function as notified by the Agency for implementation of the regulations.

7. Responsibilities of the consumer.- The consumer shall:

- (a) take steps to minimize the use of single-use plastic product and reduce plastic waste;
- (b) undertake the segregation process at source as per the guidelines issued by the Agency;
- (c) follow a direct segregated collection method by placing separate waste disposal containers, buckets, cans, etc., at conspicuous and convenient areas throughout his respective buildings or stores or premises, as the case may be;
- (d) ensure, either himself or through collectors, that the recyclable plastic waste is channelized to a registered plastic waste recycler;
- (e) educate the public at large for proper disposal of single-use plastic product including, but not limited to, displaying educative slogans, or messages, etc.;
- (f) segregate and manage the recyclable plastic waste generated during such events as per the respective applicable extended producer's responsibility;
- (g) provide customers with free plastic shopping bags or allowing customers to buy only reusable or recyclable bags; and
- (h) perform other function as notified by the Agency for implementation of the regulations.

8. Responsibilities of the collector.- The collector shall:

- (a) collect the plastic in a timely manner as per the prepared schedule for pick-up of plastic waste;
- (b) transport the segregated plastics in a segregated manner to a registered recycler; and

- (c) perform other function as notified by the Agency for implementation of the regulations.

9. Responsibilities of the recycler.- (1) The recycler shall:

- (a) ensure proper segregation of non-risk and risk plastic waste where after the later shall be appropriately disposed of or incinerated as per the notified Punjab Environmental Quality Standards of the Agency;
- (b) avoid any hazardous contamination during the recycling process of single-use plastic product meant for packaging that directly come in contact with food items;
- (c) take adequate measures for enhancing efficiency of collection, segregation and recycling of plastic waste;
- (d) upgrade the recycling mechanism in terms of evolving scientific approach; and
- (e) perform other function as notified by the Agency for implementation of the regulations.

(2) No recycler shall recycle the risk waste, including but not limited to medical plastic wastes and containers used for packaging of toxic contents, such as pesticides, insecticides, harmful chemicals, etc., except as per the environmental approval by the Agency.

10. Powers of the authorized officer.- (1) The Director General shall notify authorized officers within a designated area.

(2) The authorized officer may:

- (a) enter and inspect any premises as provided under the Act;
- (b) take samples or carryout out test of single-use plastic product in accordance with the Environmental Samples Rules, 2001 at the spot through a calibrated instrument; and
- (c) inspect any documents for ascertaining any contravention of the regulations.

(3) On receipt of an application or on his own knowledge regarding any violation as specified in the Schedule-V, the authorized officer shall initiate an investigation:

Provided that the investigation shall be completed within seven days of receipt of the application or information of violation, as the case may be.

(4) The authorized officer, if satisfied that a violation of any of the provisions of the regulations has occurred, may take or cause to be taken all necessary measures for the protection of the environment and control of pollution.
