AIR QUALITY INDEX (AQI) RECORDED WITH AQMS OF EPA IN VARIOUS CITIES OF PUNJAB

- Note:
- The mobile van is parked at DHA, Phase 8, Lahore.
 - The report prepared on the basis of instruments generated data.
 - At present, the concentrations of respirable fine dust particles and Oxides of nitrogen is exceeding the standards of environment protection department which is mainly contributing to the air pollution and high AQI. The data pattern shows automobile emission is major contributory in raised air pollution.
